WEROAD **GLOBAL REUNION** *Cruise Edition*

THE PRIVATE CHAT OF THE REUNION

Your guide to chatting with everyone on board: groups, private chats, announcements and more.

OPEN THE CHAT

globalreunionchat.com

Works on iPhone and Android, straight from the browser.
No app to download.

CREATE YOUR ACCOUNT BEFORE YOU BOARD

Sign up while you still have a normal internet connection: we email you a 6-digit code to confirm it's really you. It only takes a minute.

1. Enter the email you booked the trip with

2. Your name and a password you'll remember

3. Type the code we emailed you. Done!

1

Go to globalreunionchat.com

Open it in Safari (iPhone) or Chrome (Android), or scan the QR code on the cover.

2

Use your booking email

Only Global Reunion participants can join: use the same email you booked the trip with.

3

Choose a password

At least 6 characters. You will need it to sign in on another phone, and nobody else can write pretending to be you.

4

Enter the code

Check your inbox (and the spam folder) for the 6-digit code. It is valid for 15 minutes.

Why before boarding?

On the ship the Wi-Fi only opens the chat, so emails may not arrive. Once you're signed up, you just need your email and password.

Private by design

Only people on the participant list can create an account. Your email is never shown to the others.

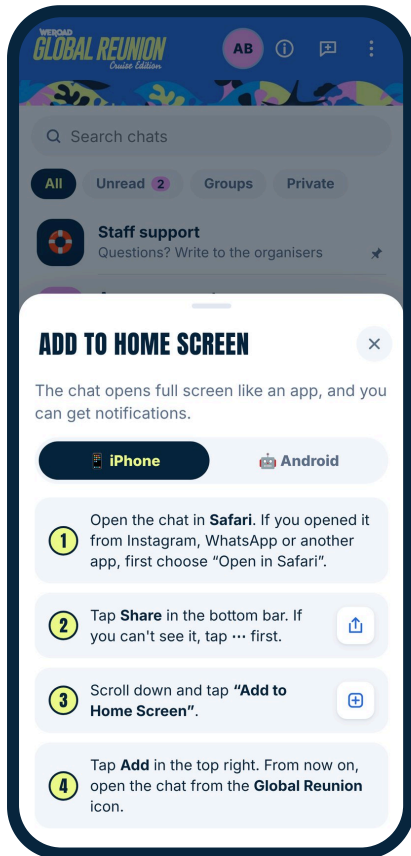

Email not accepted?

Booked with another address? Ask the organisers to add it.

PUT IT ON YOUR HOME SCREEN

Add the chat to your Home Screen: it opens full screen like a real app, with its own icon, and you can get notifications for new messages.

The same guide is inside the app:
Menu : → **Add to Home Screen**

iPhone (Safari)

Open globalreunionchat.com in **Safari** → tap **Share** → **Add to Home Screen** → **Add**. From now on, open the chat from the Global Reunion icon.

Android (Chrome)

Open globalreunionchat.com in **Chrome** → tap **⋮** → **Install app** or **Add to Home screen** → **Install**.

Turn on notifications

Open the chat from the Home Screen icon and tap **Turn on** on the card at the top of your chats (or **Menu :** → **Notifications**). You'll hear a sound and feel a vibration for new messages too. On iPhone, notifications only work from the Home Screen icon.

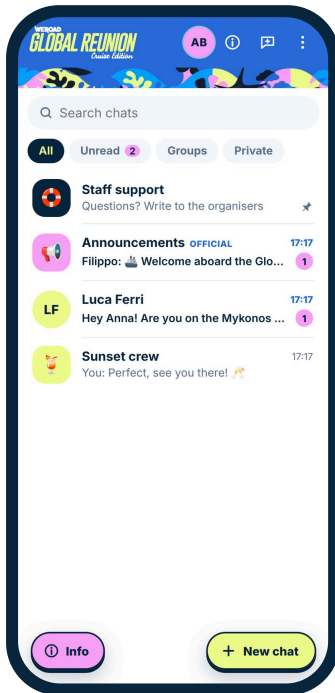

On board

Connect to the ship's Wi-Fi and open the chat as usual: it is unlocked for all Global Reunion participants. The app updates itself, so there's nothing to reinstall.

Notifications don't arrive.

I deleted a private chat by mistake.

It's only gone for you: the other person still has it, and it comes back as soon as one of you writes again.

Be nice, have fun!
